

President's Challenge 2016/2017

I would like to propose a challenge to members and guests for the 2016/2017 quilting season. The theme is to be taken from nature and a photograph of the subject that prompted your quilt should accompany your work.

The rules are as follows:

- The subject is to be taken from Nature. It doesn't have to be exactly what you see but can come from the colours, shapes, shadings etc. you see.
- The pattern can be one you design yourself or it can be a traditional design
- It must be a functional quilt. Wall hangings are not included but bed quilts from doll bed up are acceptable as well as jackets, table toppers, draft deflectors, or anything else functional.
- There will be 2 categories. Quilts from baby size up to a circumference of 300 inches and all other quilted items.
- There will be a draw as a prize in each category.

I hope you will have fun with this challenge and I am looking forward to seeing what we all can make.

Anna Vale
